ABOUT ME

Computer Science Engineering graduate with strong knowledge of Core Java, OOP, and databases. Experience building web applications using Java, HTML, CSS, JavaScript, React, and MySQL. Seeking a Software Developer Fresher role to apply problem-solving skills and grow professionally.

EDUCATION

- **Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh**

  2021 - 2025

  Bachelor of Technology (B.TECH)
  Branch – Computer Science & Engineering
- **Ram-eesh International School**

  2020 - 2021

  Senior Secondary(12th)
- **Ram-eesh International School**

  2018 - 2019

  Matriculation(10th)

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript.
- **Web Technologies:** HTML, CSS, Bootstrap, React.js, JSP (Basic).
- **Databases:** PostgreSQL , MySQL, Oracle.
- **Tools & IDEs:** Visual Studio Code, Sublime Text, GitHub, FastAPI (Basic).

EXPERIENCE

Embetter Technologies Pvt Ltd. 02/2026 – 03/2026

Software Engineer (Intern)- LetsConfab (Confab) Project

- Built LetsConfab, a multi-provider LLM system using FastAPI.
- Integrated OpenAI, Gemini, and Ollama models with fallback logic.
- Implemented BYOK system and streaming responses.
- Used Docker, Git, and LangGraph for structured AI workflows.
- Focused on cost optimization and multi-model architecture.

Infosoft Technologies 11/2025 – 01/2026

Software Engineer (Intern)- Duty-management Project

- Developed user interface using ReactJS.
- Integrated APIs for data fetching and submission.
- Implemented forms, validation, role-based data handling, and UI improvements.
- Connected frontend with backend services and handled error scenarios.
- Implemented Firebase notification system to send real-time alerts and updates to users.

Project-2:- Janasunwai Project (Complaint Management System).

- Worked on modules such as login integration, SP profile data handling, complaint response form, Redux state management, and API connectivity.
- Implemented fetching and storing user profile data, dynamic routing, response submission, and UI enhancements.
- Fixed multiple integration issues related to API calls and state updates.

UniCoverge Technologies, India 07/24 - 08/2024

Core Java Developer Intern

- Developed a basic Music Web Application using Java, HTML, CSS, and JSP for frontend and backend integration.
- Implemented core features like song upload, playlist creation, and user authentication.
- Assisted in debugging, testing, and enhancing application performance.

UniCoverge Technologies , India 02/2024 - 03/2024

Python Developer Intern

- Developed and managed Python applications and scripts for automation and data processing.
- Worked with libraries like Pandas, NumPy, and Flask for data handling and web development.
- Participated in code reviews, debugging, and performance improvements.

PROJECTS

Personal Portfolio App | JavaScript, HTML, CSS **(Jan 2025)**

- Built a fully functional portfolio website focused on front-end design and user experience.
- Added a dark mode toggle for better accessibility and comfort.
- Designed using a mobile-first approach for smooth performance across devices

College ERP – Student Registration & Login Portal **(May 2025)**

- Developed a web-based ERP system for student registration and authentication.
- Front-end: HTML, CSS, JavaScript.
- Back-end: Java for authentication & business logic.
- Database: MySQL for secure data storage and management.

News Web Application **(Aug 2025)**

- HTML,CSS,Bootstrap,JavaScript,React.js
- Developed a dynamic News Web Application that fetches and displays real-time news articles from public APIs.
- Implemented features like category-based filtering, search functionality, and responsive layout using Bootstrap.
- Used React.js with TypeScript for component-based architecture and better type safety.
- Focused on clean UI design, fast rendering, and smooth user experience across all devices.

Friday AI | Python **(Sep 2025)**

- Developed a voice-controlled virtual assistant named Friday AI using Python.
- Integrated features like voice recognition, speech output, web search, and system automation.
- Utilized libraries such as speech_recognition, pyttsx3, and datetime for natural interaction and task execution.
- Focused on creating a smart and interactive user experience with efficient command handling.

ORGANIZATIONAL SKILLS

- Fast Learner
- Time Management
- Teamwork
- Problem Solving
- Self-Motivated
- Communication Skills
- Ability to Work Independently
- Task Prioritization

LANGUAGES

- English
- Hindi
